Purpose of List:

The following is a list of Anticipated Openings in the U.S. for the upcoming September application round for Spring 2016 placements. The institutions are sorted into categories based on the chance of placement at that institution. Criteria for the categories include actual amount of space at the institution and the typical number of international students that request it. Please note that there may be more or fewer actual openings once the applications have been submitted.

ISEP tries to place as many students as possible in one of their top choice schools, so students should give serious consideration to the chances of placement at their top requests. Please do not apply for sites listed as "Closed."

For more information about site availability, please refer to our [Chances of Placement Guidelines](#).

Most Competitive Sites:

Institutions marked as Most Competitive are usually in high demand and have limited openings. **Students may apply to only ONE Most Competitive site and it must be listed as the first choice on their application.** Students who do not want a Most Competitive site as their first choice should not list a Most Competitive site anywhere on their Host Site Request List. Students must submit their application to ISEP by the priority deadline of **September 1** in order to be considered for a Most Competitive site.

IMPORTANT NOTE: Students should only apply to Most Competitive sites that are currently open for applications.

The following sites are Most Competitive because of the high number of international students that request them compared with the limited number of available openings.

ISEP-Direct Programs and Costs 2014-2015

ISEP-Direct programs are open to students from any ISEP member institution. Benefit packages are specified below for each site and may include: 1) **Tuition, Room and Meals** (student will arrange and pay for own housing and meals); 2) **Tuition and Room** (student will arrange and pay for own housing and meals); 3) **Tuition Only** (student will arrange and pay for own housing and meals). Students wishing to apply for an ISEP-Direct program should indicate their preferred benefit package on their application next to the name of the institution. (Example: University of Strathclyde - ISEP-Direct Tuition & Room).
