Students with a visa stating “Dispense temporaire de carte de séjour” have no particular formalities to do. Please note that this visa doesn't allow students to have a paid job in France or to travel outside France except to their home country. Also note that with this type of visa, students may have difficulties obtaining the CAF housing allowance.

HEALTH INSURANCE

Health Insurance

MANDATORY

European students will have to bring their European Health Insurance Card.

Non-European students will be enrolled to French “Sécurité Sociale” (free of charge). Students benefit from a partial refund (about 70%) for basic medical consultations and medication. Enrolment is done upon student's arrival.

Important: Sécurité Sociale isn't valid when students travel outside of France, in case of repatriation and for civil liability.

In addition to Sécurité Sociale, Junia requests that students provide an international health insurance, covering all medical costs for the first month of stay minimum. We strongly advise students to take out an insurance in their home country and ask students to provide the certificate before arrival. This insurance can be extended to the full period of stay and should cover repatriation and civil liability also.

Health Insurance

OPTIONAL

Students have the option of taking a complementary insurance plan to obtain better refunds. This plan supplements the enrolment to Sécurité Sociale. There are several complementary student insurance companies.

- SMENO: www.smeno.com (discount code : JUNIA)
- LMDE: www.lmde.com
- HEYME: www.heyeme.care (discount code : 59JUN-10)

Costs vary depending on the insurance company and the option chosen (from about 12€/month for the less expensive).

Important: Note that this complementary health insurance is **different** from the international health insurance students **have to provide** before arrival.

ORIENTATION

Welcome session

All international students have to take part in the welcome session during the first weeks of the semester (late August-beginning of September for Fall semester admissions, early January for spring semester admissions).

Enrolment, administrative formalities and classes are organised during those first weeks as well as ice-breaker activities, in collaboration with International Students Association.

ADDITIONAL INFORMATION

International Students Association

The aim of the association is to create bonds between international and Junia students. It also aims at making the arrival in a new town and on a new campus a lot easier. They help students with a variety of services and also organise parties, sightseeing trips, regional specialties tasting... Moreover, each international student will be attributed a buddy who will help with the students' integration.

The association initiates contact with students prior to arrival in order to organise pick up at the train station and helps international students settle in their new environment.
